Turn real objects into **digital sculptures.**

A complete, intuitive workflow from capture to 3D print — made for contemporary artists, designers and creators.

1 Capture

Scan real objects with OctoSculpt Capture on iPhone.

2 Reconstruct

Turn your captures into a high-quality, true-scale 3D mesh on your Mac.

3 Sculpt & refine

Edit on Mac or sculpt at real scale in Meta Quest with natural hand gestures.

4 Create

Prepare your sculpture for 3D printing and send it to your preferred slicer.

REAL OBJECTS. ENDLESS POSSIBILITIES.

Create what's next.
